

**PELLA COMMITMENT TO CONTINUING EDUCATION**

As an AIA/CES Registered Provider Charter Member since 1995, Pella Corporation has been committed to developing quality learning activities in accordance with AIA/CES and Health/Safety/Welfare (HSW) criteria. Since 1995 Pella architectural consultants have presented more than 10,500 programs to over 88,000 architects. In 2006, Pella was the first Registered Provider to receive the AIA's highest five-star rating for its continuing education programs.

Architects may select from the following list of face-to-face programs:

P101	Comparative Study of Wood and Aluminum Windows in Commercial Building
P201	Commercial Wood Window Installation Systems
P301	Window and Door Solutions for Commercial Success: Balancing Performance, Aesthetics and Budget
P501	Glazing Systems: Balancing Aesthetics, Performance, and Cost
P601	Window Performance Requirements for Commercial Buildings
P701	Hurricane Protection for Windows and Doors
P1104	Windows: An Environmental Perspective
P1306	Fiberglass Fenestration in Commercial Buildings
P1709	Window Replacement Solutions for Commercial Buildings
P1911	Sustainable Fiberglass Window Installation Systems

Pella's architectural consultants can present continuing education programs at your office. They have also partnered with many AIA components on programs at local, state, regional and national meetings and conventions. Distance learning opportunities are also available.

Pella's programs are typically one hour in length, so architects receive one Learning Unit (LU) and one hour of HSW. Program length can be adjusted to fit other time frames as well. Designers, specifiers and project architects benefit most from the content of these seminars.

Throughout the year, Pella Corporation invites architects, builders and contractors to visit the company's headquarters in Pella. Attendees earn continuing education credits for both AIA and AIBD courses. While in Pella, participants are invited to attend plant tours and breakout sessions (forums where design and building professionals can brainstorm and share their comments and feedback on Pella products and programs).

Pella also awards scholarships to top students at the country's leading universities and schools of architecture.

Please contact your local Pella architectural consultant for more information about these programs or visit <http://www.pellacommercial.com/architect/education> for the most current list of face-to-face and distance learning programs.
